EXPERIENCE

Agroindustrial engineering

2023- 2024

Alma de Huila

- I did the professional internship for 6 months and worked the next 6 months in the natural coffee processing area of the company. I was leading a large group of workers in the area, with whom I developed work strategies that helped improve communication, effectiveness and performance of the processes. I managed to improve my teamwork skills and learned about the importance of effective communication.

Administrative assistant

2022 - 2023

Centro internacional de maquinaria pesada DPL

- I carried out administrative tasks and direct customer service. This included managing documentation and files, performing reception and telephone support tasks, thus contributing to the general functioning of the company and maintaining positive relationships with customers.

PROJECTS

Hotels booking

June 2024

Accommodation booking web application that allows users to search and book hotels, apartments and other types of accommodation around the world.

- technologies and techniques: Node.js, Sequelize, Postman, postgresSQL

Pokedex

April 2024

Web app provides information about different Pokemon, such as its name, type, abilities, statistics and more. It allows you to locate Pokémon using a search bar and also a filter of Pokémon types..
